NIRVAY KUMAR BIKRAM

Senior Java Engineer | Spring Boot, Microservices, Kafka, AWS, Angular
Mobile: +91 7439600108, Email: nirvay.bikram948@gmail.com
LinkedIn: https://www.linkedin.com/in/nirvay-k-bikram-56392059/
Portfolio: https://panditnirvay.github.io/, GitHub: https://github.com/PanditNirvay
Location: Delhi NCR, India

Professional Summary

Senior Java Software Engineer with **6+ years** of experience designing, developing, and maintaining scalable enterprise applications and microservices using Java 8, 17 and 21, J2EE, Spring Boot, Spring Cloud, Spring Security, Hibernate, JPA, REST APIs, Apache Kafka, Redis, and MYSQL. Skilled in building secure, high-performance distributed systems, event-driven applications, cloud-native solutions, and Continuous Integration and Continuous Deployment (CI/CD) pipelines, and in providing production support. Hands-on with Amazon Web Services (AWS), Docker, Kubernetes, Jenkins, GitLab CI/CD, SonarQube, JUnit, Mockito, Prometheus, Grafana, Splunk, and Amazon CloudWatch. Full stack development with Angular, TypeScript, JavaScript, HTML, and CSS3. Exposure to generative AI through a production project using Spring AI, LLM integration, and RAG, plus a personal RAG chatbot project; use ChatGPT, Claude, and GitHub Copilot daily to improve development productivity.

Technical Skills

- **Core Expertise and Strong Hands-on Experience:** Java 8, 17 and 21, J2EE, Spring Boot, Spring MVC, Spring Cloud, Microservices Architecture, Hibernate, JPA, RESTful APIs, WebClient, API Integration, Design Patterns, SOLID Principles, AOP, Apache Kafka, MySQL, Oracle Database, Microsoft SQL Server, Redis, SQL Query Optimization, Database Indexing, Spring Security, JWT, OAuth 2.0, RBAC, JUnit, Mockito, Git, Maven, Gradle, Jenkins, GitLab CI and CD, SonarQube, Postman, Docker, Swagger, OpenAPI, Prometheus, Grafana, Splunk, Glowroot, GitHub, GitLab, IntelliJ IDEA, Eclipse, Spring Tool Suite (STS), Multithreading and Concurrency, Java Streams API, Spring Data JPA, Resilience4j, Circuit Breaker Pattern, API Gateway, Agile/Scrum and Jira.
- **Working Knowledge and Intermediate Experience:** AWS (EC2, EKS, RDS, S3, IAM, CloudWatch, Secrets Manager), Kubernetes, Angular (11, 13 and 17), JavaScript, HTML, CSS3, Bootstrap, jQuery, Thymeleaf, JSP and JSTL, Visual Studio Code, Apache Tomcat.
- **Basic Knowledge and Familiarity:** Spring AI, LLM integration, RAG, vector databases. Daily use of AI coding tools (ChatGPT, Claude, GitHub Copilot).
- **Operating Systems:** Microsoft Windows, Linux.

Work Experience

Independent Projects and Upskilling | Jan 2026 - Present

- Built *Jeevan Jyoti Foundation*, a disaster-relief donation platform, using Java 21, Spring Boot microservices, Angular 17, MySQL, and Redis, with Apache Kafka for donation and notification events.
- Containerized services with Docker, deployed on AWS using Kubernetes, and set up monitoring and centralized logging with Prometheus, Grafana, and Splunk.
- Built a Retrieval-Augmented Generation (RAG) chatbot using Spring AI that answers visitor questions about the foundation and donations from the site's own content, integrated with the Angular frontend via a Spring Boot REST API.

TRACK FOUR INFOTEC (I) PVT. LTD. (eOxegen), Noida, India
Senior Software Engineer and Technical Lead, Jan 2025 - Dec 2025

- Designed, developed, and maintained enterprise applications using Java 21, Spring Boot, Spring Cloud, Hibernate, JPA, and RESTful APIs with MySQL and Microsoft SQL Server databases.
- Built and maintained 10+ microservices and implemented event-driven architecture using Apache Kafka for asynchronous and distributed processing.
- Secured applications and APIs using Spring Security, JSON Web Token (JWT) and OAuth 2.0; documented APIs using Swagger and OpenAPI.
- Improved application scalability and API response time using Redis caching, SQL query optimization, database indexing, and asynchronous processing.
- Implemented circuit breaker and retry using Resilience4j behind an API Gateway.
- Implemented Continuous Integration and Continuous Deployment (CI/CD) pipelines for 10+ microservices using GitLab CI/CD, Docker, Kubernetes, and Amazon Web Services (AWS) Elastic Kubernetes Service (EKS), automating build, testing, and deployment.
- Implemented application monitoring, centralized logging, and code quality checks using Prometheus, Grafana, Splunk, JUnit, Mockito, and SonarQube.
- Developed Angular 17 user interface modules using TypeScript, JavaScript, CSS3, and Bootstrap, integrated with Spring Boot REST APIs.
- Part of the team delivering AI-assisted features (Spring AI, RAG) in the Health Insurance TPA platform; supported backend integration, testing, and production support.
- Used generative AI tools (ChatGPT, Claude, GitHub Copilot) for code generation, debugging, test creation, code review, and documentation.
- Provided technical leadership and mentorship, conducted code reviews and design discussions, resolved production issues, and collaborated with development, QA, DevOps, and business teams.

NEOSOFT DIGITAL PRIVATE LIMITED, Navi Mumbai, India
Senior Software Engineer, Sep 2024 - Jan 2025

- Developed and maintained enterprise applications using Java 21, Spring Boot, Spring Cloud, Hibernate, JPA, and RESTful APIs with Oracle Database and Redis.
- Designed and secured REST APIs and service integrations using Spring Security, JSON Web Token (JWT), OAuth 2.0, and WebClient.
- Implemented event-driven architecture using Apache Kafka for asynchronous processing across microservices.
- Automated application builds, automated testing, and deployments using Docker, Kubernetes, and GitLab Continuous Integration and Continuous Deployment (CI/CD), supporting containerization of services.

- Developed Angular and TypeScript frontend modules integrated with backend REST APIs.
- Supported unit testing, code quality, monitoring, and production support using JUnit, Mockito, SonarQube, Prometheus, Grafana, and Splunk.

MIND SQUARE TECHNOLOGIES INDIA PVT LTD, Kolkata, India
Java Developer, Feb 2023 - Aug 2024

- Developed and maintained 5+ enterprise modules using Java 8, J2EE, Spring Boot, Hibernate, JPA, and RESTful APIs in a microservices architecture.
- Developed and enhanced 15+ REST APIs and microservices supporting business workflows.
- Optimized MySQL database performance through SQL query tuning and indexing, improving application performance.
- Implemented unit testing and code quality checks using JUnit, Mockito, and SonarQube.
- Resolved 15+ application, API, database, and production issues.

BLOCK STACK PRIVATE LIMITED (Diamante Blockchain, Kolkata, India
Associate Engineer, Feb 2022 - Dec 2022

- Developed blockchain-based applications using Java, J2EE, Spring Boot, Hibernate, and JPA in a microservices architecture.
- Developed 10+ RESTful APIs and Angular user interface modules using Angular, JavaScript, CSS3, and Bootstrap.
- Optimized MySQL databases and SQL queries to improve application performance.
- Implemented unit testing and code quality checks using JUnit, Mockito, and SonarQube.
- Resolved application, API, database, and production issues.

Aspire Software Solutions, Ahmedabad, India
Associate Software Engineer, May 2021 – Jan 2022

- Developed enterprise applications and 5+ business modules using Java, J2EE, Spring, Spring MVC, Hibernate, JPA, and RESTful APIs.
- Developed 10+ RESTful APIs and Angular user interface modules using Angular, JavaScript, CSS3, and Bootstrap.
- Optimized MySQL databases and SQL queries to improve application performance.
- Implemented unit testing and code quality checks using JUnit, Mockito, and SonarQube.

IMPOF IT SOLUTIONS Private Limited, Hyderabad, India
Full Stack Software Developer, Aug 2019 - April 2021

- Developed enterprise applications and 5+ business modules using Java, J2EE, Spring, Spring MVC, Hibernate, JPA, and RESTful APIs.
- Developed web applications using Java Server Pages (JSP), Thymeleaf, HTML5, CSS3, JavaScript, and Bootstrap.
- Implemented authentication and authorization using Spring Security.
- Developed and optimized MySQL databases and SQL queries.
- Implemented unit testing using JUnit.
- Resolved application defects and production issues.

Projects

Jeevan Jyoti Foundation (Independent Project, 2026): Disaster-relief donation platform with Spring Boot microservices, Angular 17, Kafka, and a Spring AI RAG chatbot. GitHub: https://github.com/PanditNirvay/Jeevan_jyoti_foundation

Health Insurance TPA (Third-Party Administrator) - Health Insurance Claims and Policy Management Platform
Role: Senior Software Engineer and Technical Lead

- Microservices and event-driven platform for policy administration, member management, claims processing, and approvals, supporting high-volume transactions and integrations with internal and external systems.
- Technologies: Java 21, Spring Boot, Spring Cloud, Spring Security, Apache Kafka, Redis, Microsoft SQL Server, Docker, Kubernetes, AWS, Angular 17, GitLab CI/CD, Spring AI, LLM Integration, Retrieval-Augmented Generation (RAG), Vector Databases.

SBI ePay - Payment Aggregation and Digital Payments Platform
Role: Senior Software Engineer

- High-volume payment aggregation platform supporting secure digital payment processing, transaction handling, and integration with banking and financial systems.
- Technologies: Java 21, Spring Boot, Spring Security, Spring Cloud, Microservices, Oracle Database, Apache Kafka, Redis, Docker, Jenkins, GitLab CI/CD, Angular, TypeScript.

Aaro Ananda - ABP Group (Anandabazar Patrika) - Bengali News and Multimedia Digital Platform
Role: Java J2EE Developer

- Digital content platform for Bengali news, magazines, entertainment, audio, food, and sports across web and mobile.
- Technologies: Java 8, Spring Boot, Spring Security, Microservices, Hibernate, JPA, MySQL, Redis, Angular 13, TypeScript.

PayCircle - Blockchain, Cryptocurrency and International Payments Platform
Role: Software Developer

- Microservices fintech platform for crypto transactions and international payments, integrated with Prime Trust and Trulioo verification.
- Technologies: Java 8, Spring Boot, Spring Security, Spring Cloud, Hibernate, JPA, MySQL, Redis, Angular, JUnit, Mockito.

Other Projects: Report Builder, a dynamic reporting application using Angular 13 and AWS Cognito; Candidate Suite, a recruitment management application; PaymaACMS, an access control management application; Social Collaboration platform.

Education

- Master of Computer Applications (MCA), Indira Gandhi National Open University (IGNOU), 2018, 59%
- Bachelor of Science (B.Sc.) in Information Technology, Karnataka State Open University (KSOU), 2012, 73%
- O Level Diploma in Computer Applications, National Institute of Electronics and Information Technology (NIELIT), 2010, 65%***Training and Additional Experience***
- **Full Stack Software Developer Trainee**: KVCH (Oracle WDP), Noida, Feb 2019 - Jul 2019
- **Guest Teacher**: ISIT (Institute of Management and Information Technology), Deoghar, Jharkhand, Mar 2013 - May 2015
- **Languages:** English, Hindi
